Product fiche

Delegated Regulation (EU) 812/2013

Supplier name or trademark Model identifier Declared load profile L Water heating energy efficiency class C Water heating energy efficiency Annual electricity consumption Annual fuel consumption Other Information Thermostat temperature settings Sound power level (Indoors) Specific precautions		
Declared load profile Water heating energy efficiency class C Water heating energy efficiency Annual electricity consumption Annual fuel consumption Other Information Thermostat temperature settings Sound power level (Indoors) L C C Water heating energy efficiency 37 % Annual electricity consumption - GJ Other Information Thermostat temperature settings 60 Sound power level (Indoors)	Supplier name or trademark	Ferroli
Water heating energy efficiency class C Water heating energy efficiency Annual electricity consumption Annual fuel consumption Other Information Thermostat temperature settings Sound power level (Indoors) C C 37 % Annual fuel consumption - GJ Other Information Thermostat temperature settings 60 Sound power level (Indoors)	Model identifier	150VE/RE
Water heating energy efficiency Annual electricity consumption Annual fuel consumption Other Information Thermostat temperature settings Sound power level (Indoors) 37 % 2 803 kWh - GJ 60 15 dB	Declared load profile	L
Annual electricity consumption Annual fuel consumption Other Information Thermostat temperature settings Sound power level (Indoors) 2 803 kWh - GJ 60 15 dB	Water heating energy efficiency class	С
Annual fuel consumption - GJ Other Information Thermostat temperature settings 60 Sound power level (Indoors) 15 dB	Water heating energy efficiency	37 %
Other InformationThermostat temperature settings60Sound power level (Indoors)15 dB	Annual electricity consumption	2 803 kWh
Thermostat temperature settings 60 Sound power level (Indoors) 15 dB	Annual fuel consumption	- GJ
Sound power level (Indoors) 15 dB	Other Information	
	Thermostat temperature settings	60
Specific precautions	Sound power level (Indoors)	15 dB
	Specific precautions
