

# Tootekirjeldus

Delegeeritud määrus (EL) 812/2013

Tarnija nimi või kaubamärk	<b>Ferroli</b>
Mudelitähis	<b>TITANO TWIN 50</b>
Esitatud koormusprofiil	<b>M</b>
Vee soojendamise energiatõhususe klass	<b>B</b>
Vee soojendamise energiatõhusus	<b>39 %</b>
Aastane elektrienergiatarbimine	<b>1 316 kWh</b>
Aastane kütusetarbimine	<b>- GJ</b>
<b>Muu teave</b>	
Termostaadi temperatuuriseadistus	<b>70</b>
Mürvõimsustase (siseruumis)	<b>15 dB</b>
Asjakohased ettevaatusmeetmed	
Nutikontroller	<p>The smart function is a software application that learns about the user's consumption, which enables it to minimize heat loss and maximize energy savings. The learning process continues to learn about the user's needs in more detail and changes the temperature every hour to adapt it to the actual demand in order to improve the energy saving. When there is no demand for water, the heater still ensures that there is a reserve supply of hot water available at 45 °C. To ensure that the smart function operates appropriately, do not disconnect the heater from the mains power supply.</p>
